## Our Plan to Grow the Economy

### ***A Plan to Grow the Economy***

Since the election, our Government has put in place a plan to grow the economy in a way that works for the middle class and those working hard to join it. We have raised taxes on the wealthiest one per cent, so we could cut taxes for the middle class. **We strengthened the Canada Pension Plan** and also introduced a new **Canada Child Benefit that gives more money to 9 out of 10 Canadian families**, lifting hundreds of thousands of children out of poverty.

Our Government's top priority is to make smart and responsible investments to strengthen the middle class, grow the economy and invest in a brighter future for Canada.

And there are signs that it's working: in the last year, the Canadian economy has created a quarter of a million new jobs, economic growth was 3.7% in the first quarter of 2017, and the unemployment rate has dropped from 7.1% to 6.5%.

### ***Our Plan for Growth is Working***

A strengthened middle class means that hardworking Canadians can look forward to a good standard of living and better prospects for their kids.

We must do for our kids and grandkids what our parents and grandparents did for us.

To make this happen, we are building on our internationally recognized and solid fiscal plan to make smart and responsible investments that will not only boost economic

growth in the short term, but set the stage for long-term growth that will benefit generations to come.

By investing in the projects Canada needs and the people who can build them, we can strengthen and grow the middle class, and make our communities an even better place to call home.

A strong economy starts with a strong middle class. When middle class Canadians have more money to save, invest, and grow the economy, everyone benefits.
